

JIUSI

In-house developed Water Pump WP-03 Smart Charger JS 3600

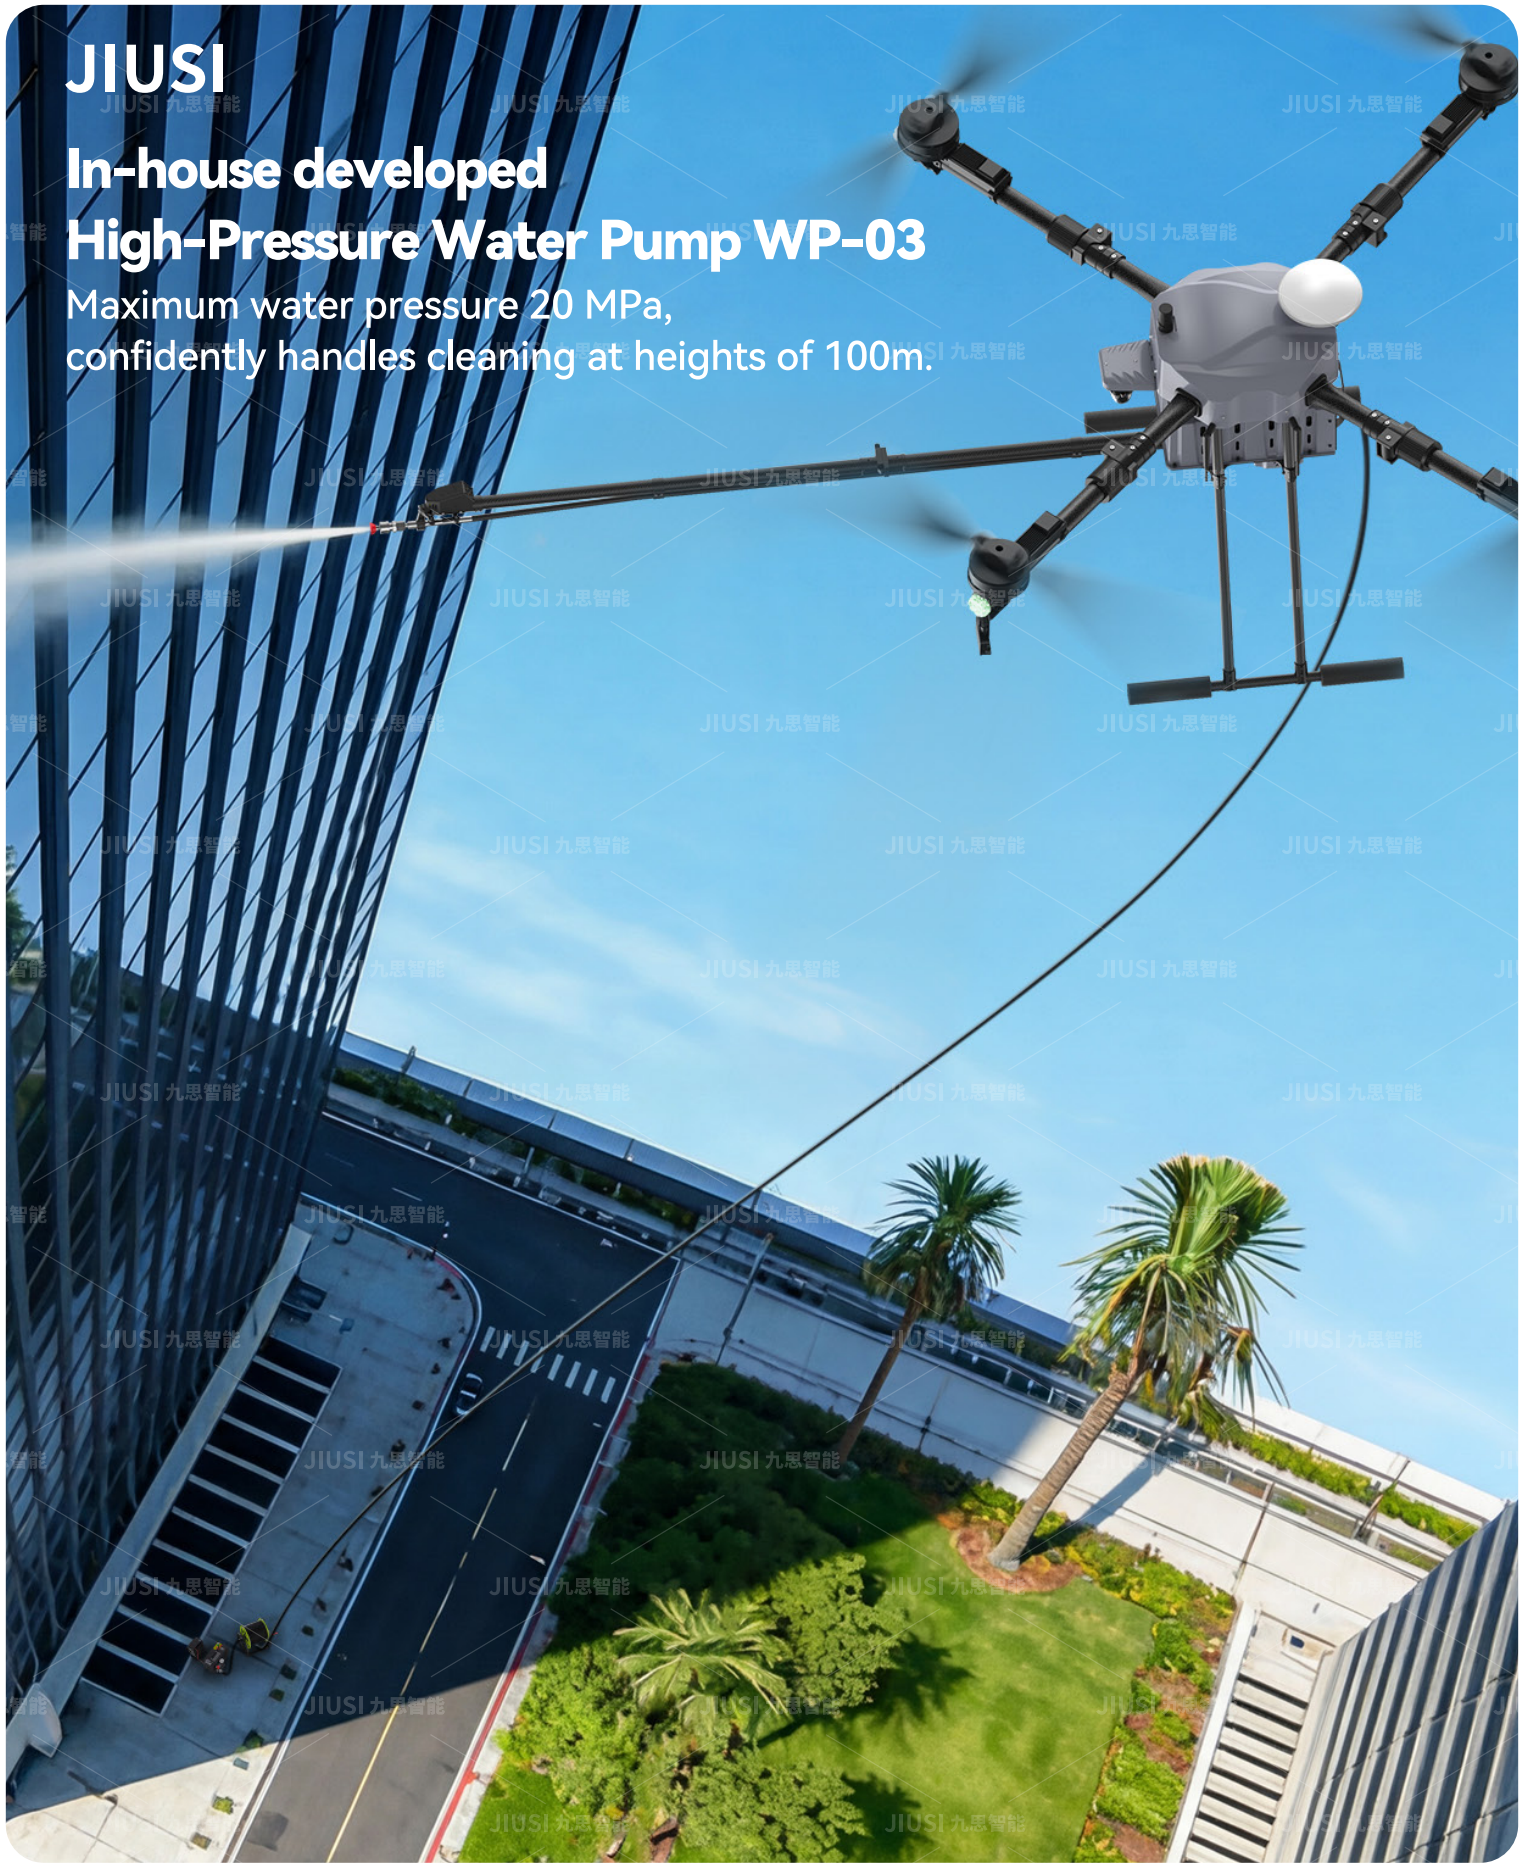

JIUSI Intelligent Aviation Technology (Shenzhen) Co., Ltd.

JIUSI

In-house developed High-Pressure Water Pump WP-03

Maximum water pressure 20 MPa,
confidently handles cleaning at heights of 100m.

- Maximum water pressure of 20 MPa, suitable for all mainstream cleaning scenarios for effortless operation.
- Compact, integrated design makes it easy to carry and move between job sites, saving time.
- Constructed from 304 stainless steel, resistant to acids, alkalis, and corrosion, ensuring long-lasting, rust-free durability.
- Supports both AC / DC power modes, flexibly adapting to various operating conditions and eliminating wiring hassles.
- Equipped with a high-efficiency brushless motor; single battery provides 40 minutes of runtime for worry-free, long-lasting operation.

High-Pressure Water Pump WP-03

Easy to Carry with One Hand

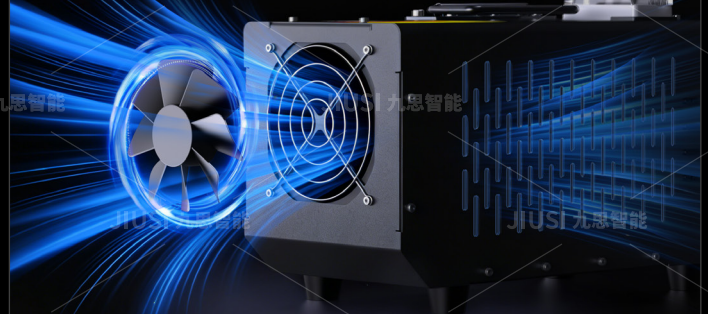

Acid & Alkali Resistant, Corrosion-Proof

AC/DC Dual Power Supply Modes

High-Efficiency Cooling

Brushless Motor Lightweight & Portable All-in-one Design Multi-scenario Applications

JIUSI

JIUSI Smart Charger JS3600

JIUSI Smart Charger 3600W – Fast Recharge & Upgraded Features!

Supports fast battery charging and intelligent maintenance. Newly added direct power supply for the WP-03 high-pressure water pump.

Plug-and-play with mains power, no setup required. Significantly extends cleaning operation time for longer, more stable performance.

Ultra-Fast Charging

3600W Quick Recharge

Super Convenient

Compact Body, Carry with One Hand

Multi-Mode

Supports Multiple Output Options

More Smarter

Intelligent Full-Power Detection

More Safer

Multiple Safety Protection Measures

Highly Compatible

Works with Various Smart Batteries

·All-in-One: Fast Charging, Maintenance & Direct Power Supply·

Fast Charging

Up to 3600W power, fully charges one JIUSI 41000mAh battery in just 40 minutes

Quick Energy Replenishment For Uninterrupted Cleaning

Battery Maintenance

Intelligently detect cell voltage differences, automatically adjust and balance the voltage of each cell with high precision.

Ensures Stable Power Retention Long-Lasting Operation

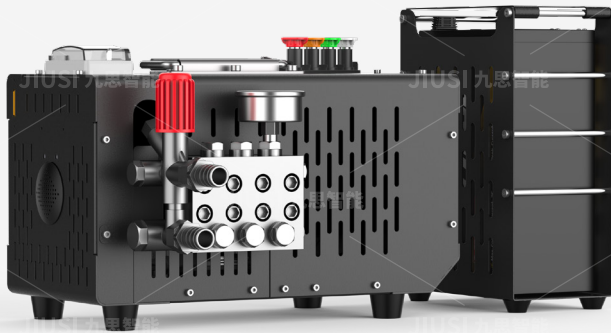

Direct Pump Power

Provides direct power to the JIUSI WP-03 high-pressure pump without occupying the battery

Efficient Power Use For Continuous Operation

·Product Specifications·

Product Model	JIUSI WP-03
Maximum Power	3500 W
Rated Power	3000 W
Instantaneous Water Pressure	20 MPa
Maximum Flow Rate	15 L/Min
Working Voltage	DC 50V-70V
Pump Head Material	304 Stainless Steel
Product Dimensions	440*360*280 mm
Product Weight	19 kg
Heat Dissipation Method	Air Cooling

Product Name	Dual-channel Smart Charger
Product Model	JS 3600
Working Mode	Charging ,Storage ,Water PumpSupply
Supported Battery Model	JS3600 supports LiHV
AC Input	100-240VAC,50-60HZ
Charging Current	AC110V:30A(Max),AC220:60A(Max)
Maximum Charging Power	3600 W
Display Model	2.4 inch IPS
Product Dimensions	276*154*216 mm
Product Weight	Approx. 6 Kg

JIUSI

EU Drone System C5 Class Compliance Certification

EU Product CE Certification

ISO Certification (International Organization for Standardization)

Industry Standard for General Drone Cleaning Operations

Board Member of Shenzhen UAV Industry Association

Qualification for Building Facade Cleaning & Maintenance Services
